EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Whewell on April 27, 2007.

The application has been amended as follows:

The Claims:

Cancel claims 28-62.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's amendments and arguments and the Examiner's Amendment are sufficient to place the instant claims in condition for allowance. Of the references of record, the most pertinent is DE 1,953,920. '920 teaches powdery abrasives with bleaching and disinfecting effect consisting of large quantities of water-insoluble, mechanically cleaning components and small quantities of essentially water-soluble cleaning components in aqueous solution, in which the essentially water-soluble components contain percompounds and N,N'-diacyl sulfonyl amides. However, '920 does not teach the specific polyamino compounds as recited by the instant claims.

None of the references of record, alone or in combination, teach or suggest the polyamino compounds as recited by the instant claims. Accordingly, since the prior art

fails to teach or suggest such compounds as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
